

MICHIGAN ALTERNATE ROUTE PROGRAMS

The Michigan Alternate Route to Interim Teaching Certification (MARITC) program provides eligible individuals an opportunity to complete an expedited program for transitioning from a previous career and/or undergraduate or graduate degree program into teaching. The intention of the program is to enable individuals who commit their knowledge, skills, and preparation to become successful, fully certificated classroom teachers through quality rigorous approved alternate route programs.

Following the successful completion of the program and three years of successful teaching within the Interim Teaching Certificate, the candidate may be recommended by the educator preparation provider (EPP) for a Michigan Provisional Teaching Certificate or Professional Education Certificate.
